Profile

A motivated and detail-oriented Web Developer with strong skills in Java, React, Node.js, Express, Python, and Django. Experienced in developing scalable real-world applications through internships and national-level hackathons. Passionate about clean coding, problem solving, and building impactful digital solutions.

Education

Bachelor of Computer Applications | Haridwar University | 2023–Present

75.4%, Roorkee, Uttarakhand

Intermediate (XII) | Crescent Public School | 2022–2023

83.4%, CBSE Board, Bokaro Steel City

Matriculation (X) | Crescent Public School | 2020–2021

80%, CBSE Board, Bokaro Steel City

Experience

Web Developer Intern | SAIL, Bokaro Steel Plant | Jun 2025 – Aug 2025

- Developed the Visitor Gate Pass System using Python, Django, and integrated UI workflows.
- Improved backend functionality, security, and user flow handling.

Java Developer Intern | Saiket Systems | Oct 2025 – Nov 2025

- Built and optimized backend modules using Java.
- Contributed to system improvements and code efficiency.

Projects

AtheletQ | Athlete Talent Development Platform

Developed during a winning hackathon at TIDES, IIT Roorkee. Uses data insights and video analysis to evaluate athlete performance.

Seat Allocator | Automated Exam Seating System

Created during a national-level hackathon at COER to automate seat allocation and reduce manual work.

Visitor Gate Pass System | Internship Project

Digital visitor entry system enabling fast check-ins, tracking, and secure data handling.
